## **DETAILED ACTION**

### ***Applicant's response to a request for information***

Applicant's response to the request for information is inadequate. The inventors' have claimed to be unaware of the invention being offered for sale or actually sold prior to March 16, 2000 and yet inventors have intimate knowledge (enough to swear behind a reference) of a production database, which was up and running on May 22, 2000.

The examiner finds it hard to believe that somewhere between March 16, 2000 and May 22, 2000, the product was offered for sale, was sold, and developed to a working production database. The examiner does not believe that it would be a huge burden to look up the contracts, statements of work and start up dates. A positive statement that the invention was not offered for sale or actually sold prior to March 16, 2000 would suffice.

### **37 CFR 1.105**

1. Per 37 CFR 1.105, the examiner may require the submission, from individuals identified under § 1.56(c), or any assignee, of such information as may be reasonably necessary to properly examine or treat the matter, for example:

(vii) In Use : Identification of any use of the claimed invention known to any of the inventors at the time the application was filed notwithstanding the date of the use.

Art Unit: 3627

The evidence provided to support applicant's declaration under 37 CFR 1.131 has raised the issued of public use or on sale in this country more than one year prior to the date of application. The following are more specific questions.

When was the start-up date for the production database of exhibit B?

When was the production database sold?

When was the production database offered for sale?

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-32 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by applicants' own disclosure.
